in the Rain.

All car traffic on the Brooklyn Bridge was abruptly stopped for half an hour at 10.10 this forenoon by an accident to a train just about to leave the New York terminus. As the cars were being shifted to the outgoing track, the rear truck on the rear car, No. 46, next to the pusher, jumped the tracks and the rear end crashed into the fence guarding the approach to the City Hall "L" station, smashing both the fence and the gates on the car. Fortunately no one was injured Meanwhile four more trains pushed into. the station close upon each other. They were the station close upon each other. They were joined together, and a lot of disgusted passengers walked through nearly twenty ears before they reached the statis to the street. They were more fortunate, however, than the crowds at the Brooklyn ond, many of whom walked over in the drizzling rain rather than wait on the crowded, stuffy platform and puffing podestrians and dripping umbrellas.

As soon as the accident occurred the ticket-offices at the New York end were closed and only holders of tickets were admitted-to the platforms.

INV ASSOCIATED PRESENT ALBANY, Dec. 7 .-- Gov. Hill has removed County Clerk Hoffman, of Dutchess County, and has appointed in his place Storm Emons, who was elected county Clerk at the recent election. In his opinion the Governor says:
